### Course objectives:

Continuing the research work, starting the publication process.

### Course content:

The **Research Seminar** subject (12 credits) is taught by the supervisor, and includes all activities and consultations dedicated by the PhD student and the supervisor to the research and dissertation writing, as well as the preparation of publications and conference presentations.

### Requirements, evaluation and grading:

Submission of the Progress plan with the supervisor's signature.

### Required and recommended readings:

Burns, D., Howard, J. and Ospina, S. (2022) *The SAGE Handbook of Participatory Research and Inquiry*. Los Angeles: SAGE reference

### Learning outcome:

The PhD student who completes the Research Seminar:

- Knows the significant and latest domestic and international literature related to their research topic, and the fundamental principles of ethical research.
- Capable of independent research, critical reading of the literature, developing their own view, and persuasive argumentation in support of their own view.
